torresbert811@gmail.com

## Skills

Html, Css, Javascript, Python, C#, C++

React, Next.js, React Native, Node.js, Typescript

Mongodb, Vercel, Firebase

Illustrator, Photoshop, After Effects, Figma

Machine Learning

Linux, Windows, Ubuntu, Github

## About Me

Aspiring to excel as a software engineer, I am a dedicated and motivated computer engineering graduate with a passion for crafting innovative solutions. With a solid foundation in computer engineering principles and a strong focus on software development, I am eager to leverage my skills and expertise to contribute to cutting-edge projects.

## Education

### BS in Computer Engineering

College 2019 - 2023

*University of Rizal System*

### Science Technology and Mathematics

Senior High School 2018-2019

*AMA Computer Learning Center*

### Science, Technology, Engineering and Mathematics

Senior High School 2017-2018

*Systems Technology Institute*

## Experience

### Software Developer

Blesspayments

Full time

Aug 2023 to Present

- Proficient React Native developer creating top-tier mobile apps, skilled in pixel-perfect Figma design translation.
- Committed to rigorous QA for bug-free, dependable software.
- Actively contributes to feature development and app functionality.
- Efficiently identifies and resolves software bugs for a seamless user experience.

### Full Stack React Native Developer

Chick N Jorge (food hub)

Freelance

January 2023 to Aug 2023

- Design and develop captivating UI/UX in React Native for seamless mobile app experience.
- Implement front-end features and components, ensuring cross-device compatibility.
- Integrate cloud Firestore for efficient data storage and retrieval.

## ● Full Stack Web Developer

University of Rizal System  
Thesis Project  
2022 - 2023

- Develop full-stack web applications using Next.js, Tailwind CSS, MongoDB, and deploy on Vercel.
- Create visually appealing and responsive user interfaces with Tailwind CSS.
- Utilize Next.js for server-side rendering and optimized performance.
- Implement MongoDB for efficient data storage and retrieval.

## ● Full Stack Web Developer

Hbomb Clothing  
Freelance  
February 2021 to October 2021

- Full-stack web development using React.js, Firebase hosting, cloud storage, and cloud database.
- Create engaging front-end features and responsive UI/UX.
- Implement user authentication and secure access control.
- Optimize application performance and responsiveness.
- Utilize Firebase for seamless deployment and continuous integration.
- Stay updated with the latest web development trends.

## ● Python Developer

Personal Project

- I integrate a music streaming service or an audio player library within the bot to handle the playback of music files. This can involve utilizing libraries such as FFmpeg or YouTube-DL to handle audio extraction, conversion, and streaming. By incorporating these tools, the music bot can support various audio formats and platforms, such as YouTube, SoundCloud, or local music files.

## ● CYBERSECURITY AWARENESS

- Department of Information and Communication Technology
- Certificate Of Completion
- June 27, 2022

## ● INTRODUCTION TO CLOUD HOSTING & STATIC WEBSITES ON A CLOUD STORAGE

- AWS Siklab Pilipinas
- Certificate Of Attendance
- June 23, 2022

## ● TECH STARTUP 101 IDEATION AND PROTOTYPE DEVELOPMENT IN THE NEW NORMAL

- 2022 Webinar on Science, Engineering, Information and Communication
- Certificate Of Participation
- June 11, 2022

## ● PLANNING AND EXECUTING INNOVATIVE PROJECTS FOR EXTERNALLY FUNDED RESEARCH

- 2022 Webinar on Science, Engineering, Information and Communication
- Certificate Of Participation
- June 10, 2022

## ● MECHATRONICS AND ROBOTICS IN WORLD OF AI

- 2022 Webinar on Science, Engineering, Information and Communication
- Certificate Of Participation
- June 9, 2022

## Certificate

### ● REACT NATIVE RANKING IN THE TOP 25%

- TestDome
- Certifies passed the React native public test
- July 5, 2023
- <https://www.testdome.com/certificate/s/527c32cc0c18423ca65b4255db761efa>
